- Working index hand (palm back, pointing in/up) makes small twisting movement by side of nose. 5
- Pads of thumb, middle and third fingers of working hand touching, index and little fingers extended (palm in, pointing up); supporting "N" hand (palm back, pointing in/up) behind working wrist moves down forearm in two small arcs. 5
- Crossed flat hands (palms back, pointing in/up) working hand in front and thumbs linked, flap to imitate wings. Fingers do not separate. 9
- Working parallel bent hand (palm forward, pointing up) by side of mouth, opens and closes. 4
- Working index hand (palm down, pointing forward) finger flexes while hand moves forwards. 4
- Pads of thumb, middle and third fingers of working hand touching, index and little fingers extended (palm in, pointing up). 6
- Working clawed hand (palm down, pointing forward) by side of head, moves down with fingers wriggling. 6
- "V" hands (palms back, pointing in) at each side of mouth, make small outward movement. 3
- Working, loosely clawed, hand (palm in, pointing down) moves up and out to show shape of tail from hip. 8
- Working index hand "crawls" along back of supporting forearm dragging hand behind it. 11
- Working index and middle fingers flick out from underneath supporting cupped hand (palm down, pointing forward/in). 5
- Working fist (palm in, pointing up) moves in small circle in front of the nose. The wrist does not bend. 3
- Working cupped hand (palm down, pointing forward/in) covers supporting hand (palm down, pointing forward/in); then supporting extended index, middle and third fingers flex imitating action of neck and front legs. 8
- Working parallel bent hand (palm in, pointing up) moves forwards from face; then fingers close sharply onto thumb. 4
- Little finger hands (palms back, pointing up) close to cheeks, circle forwards twice finishing with slight outward movement. 5
- Open hands, thumbs touching temples (palms down, pointing forward) twist to palms forward, pointing up. 4
- Working bunched hand (palm down, pointing forward) moves forwards in wavy action. 5
- Working pinched hand (palm forward, pointing up) by side of mouth, opens and closes like a bird's beak while moving working elbow up and down. 7
